## LEAF SPRING SUSPENSION SYSTEMS & AXLES

### The Cruisemaster Difference

Cruisemaster has a proud 40+ year history in the vehicle components industry. Our products are designed and engineered in house with a quality first approach mirrored by our trusted suppliers.

### Key Features of the Cruisemaster Leaf Spring Suspension System Range

- Axles made in house from Australian Steel<sup>①</sup>
- Leaf Springs made of High Quality Spring Steel (Sup 9 silicon manganese spring steel)<sup>②</sup>
- Leaf Spring systems to suit axle loads starting at 1,100Kg through to 2,600Kg
- Engineered for extra stability and superior strength
- Premium automotive style shouldered shackle pins for less play<sup>③</sup>
- 60mm wide x 8mm thick leafs for additional strength, reduced spring stress under load and easy maintenance and reduce wear<sup>④</sup>
- 2 styles of mounting kit with either premium fabricated hanger (XTREME)<sup>⑤</sup> or cast hanger (EXPLORER)<sup>⑥</sup>
- 10" or 12" electric drum brakes<sup>⑦</sup> / mechanical disc / hydraulic disc / unbraked hubs
- Premium Japanese bearings with automotive grade seals<sup>⑧</sup>
- SA5 coating on XTREME hardware components (excludes weld-on mounts)<sup>⑨</sup>

Kits can be purchased complete with all components required for a new build or as individual components (Axles, Leaf Springs, Mounting Kits).
