Steel	Alloy	Alloy (Tapered)	Alloy (Flanged)		
Options	Anti Roll Bar		Rebound Cable Kit		
	Hydrastar 1600 PSI Actuator (disc)				
Capacity – ATM		Kg	Quantity		
<i>*The ATM is a critical specification for correct coil spring / bump stop combination selection. The ATM is the total weight of vehicle including full payload. Overstating or understating this capacity could lead to a detrimental effect on the ride, ride height and handling.</i> NOTE: This is a non-load sharing suspension therefore wheels and tyres need to be rated to 120% of required capacity. Ratings assume a drawbar load of 7 - 12% ATM.					
POWDER COATING (Min 21 Days lead time)					
Colour		Premium	Standard
